

NAZIS NOT WELCOME IN EDINBURGH

STOP THE SCOTTISH DEFENCE LEAGUE MARCH SATURDAY 20 FEBRUARY

UAF mass leafletting & street meeting 10am Mound Precinct (foot of The Mound)

'Scotland United' rally and march 11.30am Princes St Gardens Bandstand

The Scottish Defence League (SDL) is planning to march in Edinburgh. A previous SDL protest in Glasgow saw their members chanting sectarian slogans, some made Nazi salutes and others held up anti-Muslim banners.

The Secretary of State for Communities has compared these anti-Muslim hate groups to the fascists that marched against Jews in the 1930s.

The Sunday Herald newspaper recently exposed the links between the SDL and the Nazi BNP.

Unite Against Fascism opposes this march and we want the anti-fascist majority to stop them from being on our streets.

SDL ARE THUGS AND FASCISTS

The British National Party (BNP) and the English, Welsh & Scottish Defence Leagues are flip sides of the same Nazi coin.

Fascists have built their support through a combination of legal electoral activity and intimidation on the street.

Nick Griffin has tried to temporarily rein in the BNP's most overt displays of bigotry and violence in an attempt to worm his way into the political mainstream.

Having to don suits and pretend that they are not Nazis has frustrated the BNP's hardcore. This has boosted the growth of the Defence Leagues.

The BNP deny they are linked to these groups and vice versa, yet leading BNP members were involved in setting up the EDL. Key BNP members and supporters have been spotted at EDL protests, and links between the BNP and SDL were recently exposed in the Scottish press.

The Defence Leagues have fascists at their core. Members make Nazi

salutes and have been heard chanting racist slogans.

In Luton last year, EDL members attacked areas with a large Muslim population.

But everywhere they have turned up they have been beaten back by anti-fascist protests.

These same Nazi-led bigots intend to march on our city.

A mass demonstration can stop them – make sure you are there.
